Health

Cows have been on a complete vaccination and parasite control program.

Cows were dewormed with Safeguard, poured with Dectomax, and vaccinated with Virashield 6 and Spriorvac VL5 on 12/10/2023. Cows will also be rechecked for pregnancy.

Delivery

Free delivery or meetup within 250 miles of Caledonia, Minnesota. For those further out, we will do our best to accommodate whatever travel arrangements are made. We will give a \$200/head credit if cattle are picked up from the farm.
