

RHODES RED ANGUS

Second Annual

Bull Sale

**Saturday, March 18, 2017
2 pm at Hub City Livestock
Aberdeen, SD**

This sale will be broadcast live on the internet.

DVAuction
Broadcasting Real-Time Auctions

Real time bidding & proxy bidding available.

Fellow Cattlemen,

Every year when I have raised registered cattle I have obtained knowledge and wisdom I could never condense into a welcome letter. The gift that we have is that we get to go and AI and hear what commercial producers want. We breed by those principals for the commercial cow calf guy. We do not breed for extremes and feel strongly that the bulls can perform in all traits well. We used epd's as they were intended, "as a tool" not a marketing strategy. The bulls represent balance and maternal performance. We run the cows hard and if you come see them I promise they are just wearing their working clothes. I have studied this industry from many perspectives and the only conclusion I can come up with is that balanced cattle regardless of environment seem to always offer the best return if you consider your business to be long term. The extreme epd bulls offer the idea to either mate with fire and ice or disregard what offers long term stability. I reflect back to when I bred dairy cows at Minnesota Select Sires and saw first hand an industry change. We identified extreme genomic young sires where the gene pool is considerably more comprehensive. We found out quickly that cows that worked to the point where they fell apart didn't cash flow a bit. What is the end product in the dairy industry? Milk right, the beef is a by-product. The point I am trying to make is this, if we all tried to raise cattle that are balanced and do everything above average we would be far better off long-term then when we chase extremes.

The bulls are sound, semen tested, and insured. They are developed right and they are hard. The bulls are our best representation of what we feel offers balance to our customers.

Last but not least the thank you's, there's no way I could fit all the people into this little writing that deserve credit for helping us get to where we are. So we would like to thank everyone who has ever shared passion, wisdom, experiences, knowledge, patients, discipline and friendship. This breed has helped us meet people that will be life long friends.

Our sincere thank you for considering our program as your genetic supplier.

Jordan Rhodes

Rhodes Red Angus Ranch

For those who are interested, all of the bulls in this offering are guaranteed to pass a fertility and health examination. Free delivery will be provided within the state and any bulls going out of South Dakota will be delivered at a fair rate.

REFERENCE SIRES

LSF Balanced

Biebers Acc Oncore

Feeding and Delivery: We offer free delivery to any bull purchased in state. Bulls purchased out of state will be delivered at a fair rate. Bulls will be delivered as soon as possible, but we are able to continue to develop bulls until mid-April.

Health Program: We utilize an extensive preventive medicine/vaccination program to ensure our herd has every opportunity to optimize performance, fertility, and overall herd health. **Spring Vaccination:** BVD 1 & II, IBR, BRSV, PI3, Mannheimia hemolytica, Pastuerella multocida (*Vista Once*), 7-way clostridial (*Vision 7*), AHC Autogenous Mycoplasma bovis, Moraxella bovoculi, injectable dewormer (*LongRange*). **Pre-conditioning prior to weaning:** *Vista Once*, 7-way clostridial, Histophilus somni (*Vision 7/Somnus*), AHC Autogenous Mycoplasma/Pinkeye. **Weaning:** IBR, BRSV, PI3 intranasal (*Inforce 3*), *Vista Once*, *Vision7/Somnus*, AHC Autogenous Mycoplasma/Pinkeye, Injectable dewormer (*Ivomec 1%*) Deloused (*Cleanup II*).

The bulls will also have passed a breeding soundness exam prior to sale and will be vaccinated and ready for breeding. Breeding Vaccination: BVD I&II, IBR, BRSV, PI3, Campylobacter, 5-way leptospira (*Virashield 6 VL5*), AHC Autogenous Mycoplasma/Pinkeye, Fusobacterium necrophorum (*Fusogard*), Deloused (*CleanupII*).

Herd Health programs are developed and overseen by Dr. Bode at the Animal Health Center in Faulkton, SD.

Terms & Conditions: The terms of the sale are cash and all settlements must be made at the close of the auction. Cattle may be left at the sale barn for a reasonable length of time at the buyer's risk. All breeding animals are guaranteed in accordance with the rules and regulations set forth by the American Angus Association.

Liability: All persons attending the sale do so at their own risk.

Guarantee: All bulls selling are guaranteed to be breeders. In the event of a bull failing a semen test or being injured a suitable replacement will be furnished if available. We encourage buyers to purchase livestock loss of use and mortality.

Scrotal measurements and current weights and gains will be available on sale day. Yearling bulls will not be semen tested, but the aged bulls will be tested and ready to go.

All bull in this offering sell 100% possession and we retain 25% semen revenue shares.

All bull's in this offering will sell with a 100% insurance policy in place for the duration of 1 year purchased by the seller.

**Thank you! We appreciate your
interest in our program.**

Pioneer's name is truly fitting. The bull in the flesh is truly what we are trying to breed red angus cattle for. He represents "maternal power" His mother has a track record a mile long and grandmother writes an even longer one. Pioneers maternal side has over 60 females in production and the ones that are not donors ratio 97 for BW and 107 for WW ratios. Then his top side is truly a blessing, we bought Pioneer's sire based on principle. Cinch was so unique for being categorized as a "heifer bull". The bull was stout and powerful, he had that herd bull look and a solid epd profile to come with it. But he was a bull first! Then we find his mother and grandmother. Both are still in production and Cinch's dam will be bred first cycle ai for the 5th time this year. The two cows ratio 13 actual calves at 95 for BW and 111 for WW. The bull is a combination of two elite breeding pieces and offers a rare opportunity. We will use Pioneer via AI in our herd this coming season and has the potential to sell a pile of semen. A rare Herd Bull Prospect.

2**RREDS Frontier 6903****BULL ID:** 6903**RAAA #:** 3585348**Birth Date:** 03-07-2016**Category 1A AR 100%**

Frontier is a full sib to lot one and offers the same style and profile as his brother just does it in a little different way. This bull is going to be the bigger framed calf. He will crush our yearling weights as our heavy weight. If you have a sire line that you need to add some punch and put a really nice package on them he is your calf. Dark Cherry red, long, big footed, big scrotaled power bull that isn't going to moderate them any.

This cinch x grid master et calf has earned his right to come up here and sit at lot 3. His mother doesn't have the Primrose story but has done an outstanding job for us. This bull is stout made and the cowboy kind. He moves out and travels nice and expresses his hip nicely. A really well balanced bull that can do a whole bunch of things right.

Lots 4 and 5 are flush brothers out of the legendary Basin Primrose 2043 cow. We couldn't truly decide how to lot these brothers as they very unique in their own ways. With no more Hard Drive semen available, this is mating that offers a unique breeding opportunity to cattlemen. The bulls offer a tremendous amount of genetic potential. Don't let these brothers slip past ya.

Homestead offers the same genetic makeup of his full brothers. Phenotypically he is a bull that offers genetic potential most suitable for commercial operations. He stands for great breed character, standing on all four corners, and is a bull that will offer long term stability. His steers will offer top notch performance and will not sacrifice maternal production one bit.

This bull offers one of the most unique maternal pedigrees that has maybe ever been offered for sale. His top side is Epic out of the famed Abbi Grace cow from Browns and his bottom side offers what may be the most prolific Primrose cow in the Red Angus breed. His maternal ability should be second to none. The bull phenotypically is dark cherry red, has great feet, and is extra long.

We feel that True Grit is the sleeper of the Cinch/OT43 full brothers. Structurally and athletically the bull strides out as well as any of them. The bull is clean jointed and has an excellent hoof. His chest floor and depth of body we feel will not only offer tremendous daughters but exceptional steers as well. He has offered as much compensatory gain in the feed lot as any bull in the sale. He is a unique herd bull prospect.

This calving ease bull comes from one of our favorite donor cows. The maternal ability in this calf makes him a herd bull in his own right. His Dam has been a prolific donor siring many high sellers in past sales. She is 14 years old and has a perfect udder. If you are looking for a heifer bull that will make perfect uddered daughters, this is your bull.

Maternal brother to lasts years lot 3 Hard Drive son that sold to Merlyn Amman. A bull that offers longevity and will fix feet. His half sister was the featured lot at the North Dakota Select Sale and sold for \$10,000. This bull has three sisters in our herd right now, and they all three show promise in being elite cows.
